

Proven

The SIGVARIS 500 TRADITIONAL Series is the classic among compression stockings and is particularly suitable for people who must always wear them. The highly elastic material maintains a constant level of compression throughout the day. This quality therefore provides optimal therapeutic success, especially for the more serious indications and for long-term treatment.

Natural

SIGVARIS NATURAL RUBBER QUALITY products are manufactured from highly elasticized soft natural rubber yarn. The porous structure of the weave helps to keep the skin well ventilated and provides a pleasant environment for the legs, even during hot weather. NATURAL RUBBER QUALITY products in neutral beige go well with fine mesh pantyhose in any fashionable color.

c = circumference l = length

Circumference (in cm)						
	small		medium		large	
	Normal	PLUS	Normal	PLUS	Normal	PLUS
cT	up to 80	up to 80	up to 90	up to 90	up to 100	up to 100

cA	19-23	19-23	23-26	23-26	26-29	26-29

Length		
	short	long
lD	33-37 cm	38-44 cm
lF	56-60 cm	61-70 cm
lG	61-70 cm	71-80 cm

PLUS-Models:

Are especially made for larger calf and thigh circumferences i.e.:

A-D Stocking = larger circumference at cD

A-F Stocking = larger circumference at cF

A-G Stocking = larger circumference at cF and cG

A-T Panty = larger circumference at cF and cG

SIGVARIS

Medically proven.
Classic and natural.

500 | **TRADITIONAL QUALITY**
Medical compression stockings
made from natural rubber

500 TRADITIONAL QUALITY

For men and women who must always wear compression stockings, e.g. in post-thrombotic syndrome, chronic venous insufficiency or lymphoedema.

reliable treatment

Numerous scientific studies have documented the medical effectiveness of the 500 TRADITIONAL Series natural rubber quality products. The material is largely resistant to fatigue. These stockings are therefore worn especially for the more serious indications, for long-term therapy, and to reinforce the benefits of therapy.

natural

500 TRADITIONAL – NATURAL RUBBER QUALITY products are manufactured from double-covered Elastodien yarn. Elastodien are yarns manufactured from soft natural rubber and offer the greatest possible degree of elasticity. They are tested to Eco Tex Standard 100.

wearer-friendly

The 500 TRADITIONAL Series compression stocking is made from a porous, extremely permeable and highly elastic knitted fabric, which makes the stocking easy to pull on and off, even in the high compression classes.

durable

Since the knitted fabric is made from double-covered textured yarn, natural rubber quality products retain their shape and are extremely durable.

easy care

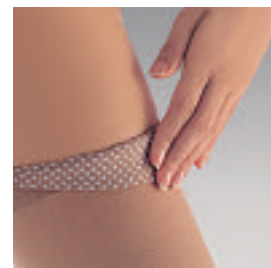

We recommend the pure organic biodegradable fabric wash, SIGVARIS SWS - Washing Solution, for optimal care and protection of compression stockings.

complete range

All models are available in the straightforward, proven SIGVARIS size range, in three compression classes. In short and long open-toed versions. A custom-made closed-toe version is also available.

Thigh stocking with waist attachment (left-side or right-side fitting)

The grip-top with knobs for half-thigh and thigh models.

500 TRADITIONAL – NATURAL RUBBER QUALITY at a glance

Soft, elastic top-end

Long wear-life, permeability and durability, thanks to the double-covering of the knitted and inserted yarns

Easy to slip on and off, thanks to extremely elastic natural rubber yarn

Gradual, medically correct reduction of the compression in accordance with the GZG guidelines

Durable elasticized heel, knitted to mold to your foot

Easing of the compression thanks to the highly elastic, knitted foot section
