

# Elastomull®

Particularly well tolerated by the skin.

**The highly elastic fixation  
bandage with a  
high cotton content.**

# Elastomull®

**A** fixation bandage should fit reliably, without slipping and creasing and should restrict the patient's movements as little as possible. **Elastomull®** meets these requirements. The elasticity of the fabric with its high restoring force and large stretch reserve allow the bandage to be applied in a rapid and material-saving manner. The elasticity does not deteriorate even after prolonged use. The high proportion of natural fibres allows for good absorption of moisture, largely preventing sweating and itching on the skin. **Elastomull®** is soft and gentle to the skin.

## Description and properties

Elastomull® is a highly elastic fixation bandage made of 42 % cotton, 29 % viscose and 29 % polyamide. The crimped weave structure helps to prevent slippage. The individual turns of bandage need only overlap by about one third. Constriction or congestion does not occur when the bandage is applied properly. The particularly high cotton content and the light, airy weave structure make Elastomull® particularly pleasant to wear.

- Highly elastic.
- Particularly skin-friendly.
- Comfortable for the patient.
- White.

Elastomull® can be sterilized in autoclaves.

*A small number of turns are sufficient to create a reliable bandage.*

## Main uses

Elastomull® is suitable for the fixation of wound dressings, especially on frequently moved and tapering parts of the body and on joints.

*Elastomull® for reliable and non-slip fixation also on extremities and tapering parts of the body.*

### Range available

Art. No.	Length	Width	Bandages per inner/outer
in polypropylene			
2094	4 m	4 cm	20/560
2095	4 m	6 cm	20/360
2096	4 m	8 cm	20/300
2097	4 m	10 cm	20/240
2098	4 m	12 cm	20/180
Hospital package without polypropylene			
2099	4 m	4 cm	20/560
2100	4 m	6 cm	20/360
2101	4 m	8 cm	20/300
2102	4 m	10 cm	20/240
2103	4 m	12 cm	20/180
45250	4 m	4 cm	50/250
45251	4 m	6 cm	100/400
45252	4 m	8 cm	100/300
45253	4 m	10 cm	50/250
